

SENTRY

Sentry is a “Whole Client” monitoring system that takes a more rounded approach to your I.T. support needs. With our monitoring structure, you will be able to have a clear and concise breakdown of all of your Technology assets. We monitor key parts of your systems that cause the most grief and downtime, and alert you proactively so that the problem can be dealt with at lower cost. Some of the benefits of this system are:

- Proactive Health Checks
- 24/7 Alert Monitoring
- Hardware and Software Asset Tracking
- Antivirus Pattern Checks
- Disk Space Checking
- Hacker Alerts
- Internet connection status checks
- Server Health
- PC and Networking Device monitoring
- Vulnerability Scans
- Event Log Checking
- And much more!

Preventative maintenance has never been so important as it is today. Since all business relies on computers, shouldn't you know how your system is functioning? With this fully flexible, fully customizable system, we can maintain your network and your business flow with ease. Let us show you the power of the Sentry system.

Monthly monitoring starts at only \$50 per month*

*Standard monitoring package includes 1 server and 5 workstation/ip devices. Every Server is an extra \$10 /mo. (up to 5 servers total in one package) Every Workstation/IP device is an extra \$1/mo.
